Atlantic Stoves

About us and our customer satisfaction

At Atlantic Stoves we have over 100 years combined experience in the stove trade. During this time we have learned that our key to success is that our main aim is customer satisfaction. We always try to give a fantastic service, to look after our customers and to ensure their needs are met.

Quality build

With all our Atlantic Stoves we use only high quality materials during the manufacturing of our stoves. We believe an Atlantic Stove should become a big part of every home and for these reasons we are confident in offering a 5 year warranty on all our stoves.

Eco Design compliant

At Atlantic Stoves we are fully Eco Design compliant in order to create a more green and sustainable future. We take great care to make sure we produce some of the most environmentally friendly stoves as possible. We are proud to say all our stoves pass the most stringent Eco Design emission and efficiency standard.

Bay 5

The Bay 5 uses convection based technology to heat the room, along with fitting most standard 16” and 18” fireplace openings shows why its one of the most popular models from Atlantic Stoves. As with all Atlantic Stoves it passes the most stringent Eco Design standard.
