LUMINOSA ELECTRIC FIRE Charlton & Jenrick LTD

Featuring our new Real Flame Technology™, the Luminosa provides the sharpest, most realistic flames ever seen on an electric fire. You will find yourself mesmerised by the embers and smoke in the flame effect, and the pulsating log light creating the ultimate in luxury electric fires. Installation is possible in three aspects, making it ideal for media wall, feature wall or dividing walls alike.

Key Features

- C&J Smart App enables you to control all aspects of the fire from your mobile device, including the optional crackle sound effect
- Three sides of glass enabling suite, media wall, and hole in the wall installations
- Birch log set, featuring logs of different colours and sizes, mimicking what you will find on a gentle stroll through the forest
- Real log set: Comes as standard for the 62. Optional for the 150
- Real Flame Technology™ with 16 colour options each available in five mood settings. The mood settings allow for five differing levels of brightness and size of flames
- 9 Log light options and 3 downlight options
- Realistic Ambilight flickering fuel bed with ten options and four mood settings
- Optional LED Lighting – Create the right mood in your room by lighting the area surrounding your fire.
- Highly efficient heat control via a 7-day programmable timer and an electric thermostat all incorporated into the stylish remote-control handset
- EcoDesign compliant built to EU and UK standards that allows you to control your fire and includes open window detection
- Two generous heat settings which are chosen automatically by the controls to meet and maintain your chosen room temperature
- 2kW max heat output- 100% efficient at point of use
- Optional wall brackets to be able to hang the fire on the wall and build a facia or enclosure around it
- 5-year extended parts warranty (first 2 years parts & labour)
- Smart App compatibility, for full control of your fire from mobile devices
- Frame options available for the Luminosa 62
- Sizes: 62, 110, 150, 185

- Sizes: i560e, i790e, i920e, i1100e, i1500e, i2000e

The iRange Slimline electric fire has been designed to create maximum visual impact in your home. This slim fire allows for less intrusive installations, allowing it to be installed in a wider variety of homes and settings.

Comprising of six models the new iRange Slimline builds on the highly successful Infinity range, providing the same features in a slimmer form factor. With models ranging in size from 560mm to 2000mm, there is an installation option that suits every interior.

iRANGE i560E SLIMLINE

The most compact fire in the iRange Slimline range, the i560e offers a stunning and stylish focal point whilst utilising space efficiently. This fire has been specifically designed with one sided installation in mind, making this fire perfect for all limestone and hole-in-the-wall installations.

iRange i560e Slimline with Log Fuel Bed. Surround for illustration purposes only

iRANGE i790E SLIMLINE

The perfect size for fireplace installations, the iRange i790e Slimline excels as the perfect choice for contemporary or traditional projects. When the most important factor is personalisation, the i790e shines.

iRange i790e Slimline. Surround for illustration purposes only

iRANGE i920E SLIMLINE

At almost one metre, the iRange i920e Slimline strikes the ideal balance between providing a wide flame picture and suiting all room types and sizes. The realistic woodland logs add to the cosy real fire ambience, featuring logs of different colours and sizes.

iRange i920e Slimline in Media Wall

iRANGE i1100E SLIMLINE

Perfect for media walls, feature walls, and dividing walls alike, the only limit with the iRange i1100e Slimline is your imagination. To accompany the flame effects there are a choice of two sound effects, bringing your fireplace to life.

iRange i1100e Slimline in Media Wall

iRANGE i1500E SLIMLINE

The iRange i1500e Slimline has been designed to create maximum visual impact in your home. This slim fire allows for less intrusive installations, allowing it to be installed in a wider variety of homes and settings. At 1.5 metres long, the i1500e has been designed for larger rooms or open plan areas, transforming the interior of your home.

iRange i1500e Slimline as a three-sided arrangement

iRANGE i2000E SLIMLINE

The biggest in the iRange Slimline range, the iRange i2000e Slimline measures a substantial two metres long. This extra-wide flame picture will enhance even the biggest of rooms, with our ultra-realistic woodland logs inside. The i2000e will add an air of sophistication to your home, whether you install it as a media wall, feature wall, or dividing wall.

iRange i2000e Slimline as a three-sided arrangement

Fascia lights

- Elite Fascias now come with the option of LED trim lights controlled by the fire's remote control
- Optional 1 metre length of LED lighting strip that can be fitted into a fireplace or surround and controlled by the fire. Please note that this optional strip cannot be used if the LED lights are being used on the Fascia. It is a choice of either fascia lights or 1 metre length
